How to protect yourself from Website & Phone Number Spoofing

1

CHECK THE URL
Look for misspellings or extra characters. Always type the address yourself.

2

DON'T TRUST CALLER ID
Scammers can spoof phone numbers. Hang up and call back using a verified number.

3

DON'T SHARE INFO
Never share personal or account information in unsolicited calls, emails, or text messages.
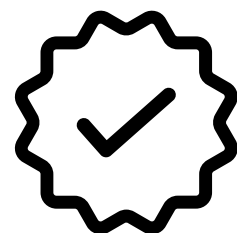

4

ENABLE SECURITY FEATURES
Using two-factor or multi-factor authentication and strong passwords when able.

5

VERIFY FIRST
If something feels off, double-check it before responding.
